

EXCLUSIVE CALENDAR

by Charity Foundation
Russian Silhouette 2019

About the project

Russian Silhouette exclusive fashion calendar focused on the art works of contemporary fashion designers is one of the most well-known publications, which is an item for collectors comparable with such famous and internationally recognized editions as Pirelli and Lavazza calendars. It is a limited edition publication and intended for high-profile government officials, businessmen and top arts figures.

The annual presentation of the fashion calendar has, over 15 years, been one of the major events in the fashion world. The show of the designers' collections together with a photo exhibition running at the same time is a unique event attended by business and cultural community in the full glare of media publicity.

The concept of a calendar 2019

220 years

birth anniversary

Alexander Pushkin

Russian Silhouette 2019 fashion calendar will unfold the true nature of poems written by the genius of Russian literature Alexander Pushkin. Next year Russia will celebrate the 220th birth anniversary of this great poet, playwright and prose-writer whose poetry continues, through the centuries, to have an enormous influence on people's minds and hearts

The concept of a calendar 2019

Alexander Pushkin earned his fame in his lifetime and gained the glory of the best Russian poet. Pushkin's poems are brilliant confessions, honest and high-spirited, wonderfully rich in feelings, imbued with sincerity and affection. The woman in his lyrics is always a muse, beautiful and pure. The nature seen through Russia's wide open spaces and colors of different seasons evokes anticipation and inspiration. Philosophy, friendship, love, passion and all the feelings have been embodied in Pushkin's verses.

Pushkin was an innovator in every genre of his writing while breaking outdated canons and introducing new forms and styles. Our calendar is vibrant, true and vivid reflection of feelings and passions embedded in his poetry, which is beyond time. The actresses' images inspired by Pushkin's poems will be the embodiment of his poetic compositions brought back to life.

Calendar

by Charity Foundation
Russian Silhouette
